MEMORANDUM

DATE: July 21, 2005

TO: File

FROM: Bob Casper

SUBJECT: L1358070001 - Montgomery
Eagle Zinc Company
SF/HRS

A phone call was placed to Roger Fath, Operator and Water Treatment Plant Supervisor for the city of Hillsboro on July 21, 2005. Mr. Fath stated that Hillsboro obtains its drinking water from two sources: Lakes Hillsboro and Glenn Shoals. The water is blended with Lake Glenn Shoals supplying the majority. The contribution of Lake Hillsboro varies from season to season but Mr. Fath indicated that it would be approximately 20% of the yearly average. Hillsboro also supplies water to several nearby communities as well as serving the Montgomery County Rural Water District.

Bob Casper, IEPA
